Minimal impact with Quest Migration Manager!

and needs to integrate the new company's IT environment with its own. It may also be that you sell a part of a company or that a previous complex AD design needs to be simplified. Regardless of why it is extremely important that migration takes place with minimal impact on the business.

This workshop covers most of the things you need to know to succeed in your AD migration with the help of Quest Migration Manager for Active Directory, which includes:

- Review of the basics of an Active Directory migration.
- Demonstration of Quest Migration Manager for Active Directory.
- Creating a Pre-Migration Task List, which is the basis for all activities to be performed before sharp migration can begin.

Suitable receiver

This workshop is addressed to IT professionals and IT architects, but primarily to system owners for Active Directory.

What do you get?

The purpose is to highlight the actions required to get as an effective Active Directory as possible. The final report is a combination of documentation about the current situation and a list of actions.

Time & place

Total time is two to three days depending on how complex your IT environment is. The workshop is organized in three stages and will initially take place at your location but the completion of the report can be done at distance.
